### Activities and Volunteer Work

- Highway Pickup, 4/11/2023, A group of friends and I volunteered for four hours and picked up trash from the sides of highways.
- Animal Shelter, 2/10/2024, A group of friends and I volunteered to take care of dogs and clean after them for a day at a non profit animal shelter.
- Made food care packages for needy families under the Rio rancho Lacrosse organization

### Skills

- **From restaurants to the lacrosse field, I thrive in fast-paced environments.** Keeping customers happy in the restaurant industry wasn't just about taking orders, it was about exceeding expectations and navigating tricky situations with a smile. That's where my **customer service skills and ability to manage multiple tasks under pressure** come in handy. On the field, as captain of my lacrosse team, I led by example, motivating my teammates and **strategizing our way to success**. But it's not just about hustle; my strongest trait is how hard-working and persistent I am. I'm also a quick learner with a knack for coding (Python and HTML), always eager to explore new tech. Additionally, I have been actively working on **personal projects involving HTML, Java, Python, and CSS**, further honing my technical skills.

### Certifications

- **Google Digital Marketing**
